

BEAR WATCHING TOUR IN KUNTIVAARA

One Day Package

Group size: 4-15 persons

Time; May-August

PROGRAM

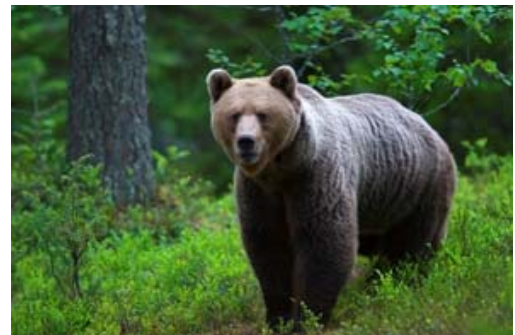

Afternoon arrival at the Isokenkäisten Klubi, and check in to your cosy room at the new Kortteeri or Klubi - building.

Before leaving to the bear watching place, we enjoy a delicious dinner at the Klubi`s private restaurant. Then we prepare our equipment ready to set out to the forest, with transportation to the bear watching area (10 minutes drive). And a short 10 minutes walk to the bear watching hut.

Our bear watching places are situated deep in the forest of eastern Kuusamo by the pond of Kunti, where there are new hiding huts. We can fit five persons to a one hut with their guide. There are three hiding huts, so 15 persons are able to join altogether to see the bears on the same tour. The Bears living by the border usually have their own timetable and normally they show up in the evening to enjoy their meal.

We return from the bear watching around midnight. The warm and cosy Seven Star Smoke Sauna or Klubi`s electric sauna, will be waiting for us to warm us up. It is great to relax and talk about the earlier unforgettable experiences of seeing the bears with a light salty snack and steamy sauna.

A full breakfast buffet will be served in the morning.
